

Member Identification Card

Dear Valued Member,

It is our honor and privilege to care for you. Your good health is our focus. That is why our team personalizes your care. We want to ensure you are as comfortable as possible and have the support you need for better health.

During certain times in your journey you may need to receive care in a hospital setting. If you go to the hospital, take your Optio Health Service Identification Card with you and show it to your nurse.

Your Optio card tells the hospital staff you are receiving palliative care from us and asks them to contact us. When they do, our team works closely with the hospital and your doctors to make sure your health care and pain management services are coordinated.

**Optio Health Services
Member Identification Card**

Name: _____

Date of Birth: _____

Date you were admitted into palliative care through Optio Health Services: _____

Attention Hospital Staff

When presented with this card by one of our palliative care patients, please contact Optio Health Services at 303-321-2929.
