HEALTH SERVICES

# More from life.

We understand every family is different and each child is unique. At The Denver Hospice, our pediatric-trained teams have the experience and education to support each child's individual needs while partnering with the family to meet healthcare goals.

Our services include:

- **Palliative care** to relieve the symptoms, pain and stress of a serious illness.
- **Hospice care** to provide comfort, pain relief and quality of life care when a child has been given a terminal diagnosis.
- **Concurrent care** that can coexist with other treatment plans so families do not have to choose between comfort (hospice) and curative care.
- **Continuous care** when symptoms are severe and need to be actively managed to enhance comfort.
- **Respite care** to provide caregivers short-term relief when the day-to-day care of a child with an advanced illness becomes physically and emotionally demanding.
- **Bereavement services** for children who have a loved one facing end-of-life transition or for families following the death of a child.

## The Leader

For more than 40 years, families with a child facing a serious, life-limiting illness have turned to The Denver Hospice. As the largest provider of palliative and hospice care in our community, we know how to reduce pain and suffering while increasing quality of life and joy.

## High Quality Care

Our staff includes nurses certified in pediatric care by the Hospice and Palliative Credentialing Center, which evaluates knowledge and expertise in pediatric palliative and hospice care and verifies mastery of the subject. Our experts are respected and trusted by the medical community. We are who they turn to with their most acute and difficult cases.

## 24/7 Support

With The Denver Hospice, you are not alone. Our pediatric patient support line is staffed 24/7 by registered nurses. Our size, strength and resources create seamless care — from diagnosis through treatment, from palliative care through hospice care and from anticipatory grief counseling through bereavement.

## Mission-Driven

Our work is guided by our mission to put people before profits — encircling those facing advanced illness with unprecedented levels of comfort, compassion and expertise.
